❖ PROFESSIONAL EXPERIENCE

Cyber Advisors, Inc.

Maple Grove, MN

Vice President of Managed Services (July 2017 - Present)

- Manage 26 technical engineers across three different departments, serving over 160 clients
- Developed and introduced a NOC alongside a full revamp of the internal escalation processes
- Developed a metrics-driven business logic to determine hiring needs, client contract realignment, and greatly improved and simplified process and communication flow

AgMotion, Inc.

Minneapolis, MN

Chief Information Officer (2012- July 2017)

- Led all IT initiatives in partnership with the company's leadership team to help generate just shy of one billion per year in revenue in a high pressure environment across four countries
- Improved services uptime dramatically, culminating in eight minutes of unplanned downtime in the eighteen months prior to my departure
- Identified and executed 41% reduction in IT budget in my first year alongside no loss in personnel, improved uptime, and improved user response time
- Selected for Evanta's CIO Executive Leadership coursework at University of Chicago Booth School of Business, 2014 and 2015

Walser Automotive, Inc.

Bloomington, MN

Field Engineer & Systems Administrator (2005 - 2011)

- Solely responsible for over 500 users across nine different locations in the Twin Cities
- Efficiently handled my individual workload alongside bringing several new stores online as well as each franchises' respective software evolutions
- Responsible for several tasks ranging from Reynolds & Reynolds administration, dealer specific applications, web filtering, and data backups, and data compliance initiatives
